

## Yardley Dental Implants to the Rescue of People with Tooth Loss

For patients who have lost their teeth due to some mishap or gum diseases Dr. Sam Khoury provides treatment alternatives that are feasible and long lasting. Dr. Sam Khoury through [Dental Implants Langhorne PA](#) comes to the rescue of individuals having lost their natural teeth even due to old age.

He specializes in treatment for an implant-supported full bridge well known as full mouth dental implants.

Located in Newtown, Yardley Rd, Dr. Sam Khoury at his Dental Implant and Periodontal Clinic offers [Yardley Dental Implants](#), PiezoSurgery & IV Sedation. For patients looking for natural-looking teeth Dr. Sam is an ultimate periodontist. He provides treatment for implants that are better than natural teeth and even function like natural teeth. Since these implant-supported full bridges are created to last long and provide comfort they are more stable option than traditional dentures.

As popular periodontist providing [Dental implants Bucks County PA](#), Dr. Khoury knows for certain that his patients retain a more natural biting and chewing capacity. He successful replaced withered jaw of his patients and allows it to heal. He follows advanced treatment for dental implants which includes:

- Taking a CT scan of the patient's jaws
- Diagnostic study models that are fabricated to allow for the planning of the patient's treatment
- Dental implant treatment is decided such as the number and location of the implants in each jaw

- **Dental implants are placed and temporary dentures are fabricated for the patient to wear till healing takes place.**
- **After healing, the dentist starts to make the final prosthesis for the patient which could either be a fixed denture that will be anchored to the implants giving the patients more stability.**
